

HSEQ Services

CAPABILITY STATEMENT

In collaboration with accomplished local professionals, Focused Vision Consulting is committed to working with our clients to achieve safe and sustainable outcomes for projects requiring health, safety, environment and quality (HSEQ) support.

The experience of our collaborative team spans all areas of workplace health and safety, environment, quality and risk management and all major sectors, including development construction, infrastructure, utilities and consulting.

We are available to complete and project manage entire projects, for sub-contract arrangements to assist within existing teams, or we can commit to being available to assist with incidental support at a moment's notice, in an ongoing capacity.

our tailored service offering

- ✓ HSEQ site & workplace audits & inspections
- ✓ Management systems; H&SMS, EMS, QMS, IMS
- ✓ Project management of site construction projects
- ✓ Sub-contractor management, including tender evaluations, inductions, site supervision & auditing
- ✓ HazID & SWMS/JSEA development
- ✓ Environmental Management Plans
- ✓ Environmental assessments & approvals
- ✓ Environmental compliance auditing & reporting
- ✓ Site environmental support during clearing & construction activities (e.g. fauna translocations)
- ✓ Incident & injury investigations & risk management

our core team

Will Bauer-Simpson

HSEQ Advisor

Will is a Director of Focused Vision Consulting and an experienced HSEQ consultant. His experience includes coordination and continual improvement of a complex corporate integrated management system within a global consultancy, and he is also experienced in the development of management systems for small to medium businesses and in NATA accredited laboratory management. Will has a Certificate IV in Health and Safety, is completing his Certificate IV in Training and Assessment, and is an accredited Lead Auditor in Quality Systems. His professional experience includes both technical consulting and corporate support roles in HSEQ with project experience including site support and project management for occupational hygiene and workplace health and safety management.

Brendan van der Pols

Health and Safety Advisor

Brendan is the Director of OSH Management Services and a specialist sub-consultant of Focused Vision Consulting. He has over 10 years' experience as a Workplace Health and Safety professional, predominantly in the construction industry, and also in mechanical maintenance and installation within refinery environments and in labour hire. He therefore has a broad understanding of workplace health and safety across multiple industries. Brendan has experience in the development and implementation of corporate integrated and standalone management systems to ISO and AS/NZS standards, spanning all of HSEQ. He is also skilled and experienced in risk, hazard and injury management, training and coaching, incident investigations and statistical/trend analysis.

Tracey Mizen

OH&SEQ Principal

Mizen & Associates Founder and Managing Director Tracey Mizen has a long history spanning almost 20 years in the resource and construction industry, having worked in a variety of businesses including customer service, traffic management, rail operations, quality, environment, safety, and risk management. Tracey brings a wealth of knowledge and experience, and a structured and coordinated approach that proves invaluable when addressing all matters relating to health, safety, quality, environment and risk, both in corporate and site environments.

Kellie Bauer-Simpson

Principal Ecologist/Environmental Manager

Kellie is a Director of Focused Vision Consulting and an environmental manager and ecologist, with more than 16 years' experience in consulting. She has significant experience in the management of ecological assessments and monitoring, environmental impact assessments and approvals. Kellie is experienced in the preparation of EMPs, EMSs, broader management systems and in environmental auditing, with a RABQSA accreditation. Her experience includes site environmental representation and stakeholder and community engagement.
